*Great with smaller speakers special*

**PALISANDER Eco**  
*The elegant pinstripe suit special*

## STANDARD VENEERS

The austrian walnut is our most beloved veneer.  
We can offer it in different flavors.

It is carefully selected and matched, the thickness is higher than commonly used for this purpose.  
The finish is in matt or hand-polished gloss (for extra charge).

Please hold in mind: Wood is a natural thing and  
each veneer is unique as a fingerprint.

## SPECIAL VENEERS

We can individualize your loudspeakers!  
Almost any veneer, colour or finish is possible.  
Except exotic woods and other environmentally unsustainable materials.  
Our Palisander and Zebrawood is a composite of domestic wood.

If you want something just made exactly for you, we will do our best.  
The cover photo shows Sun in walnut mocca, high glossy.
